WD ACTIVITY-BASED LEARNING

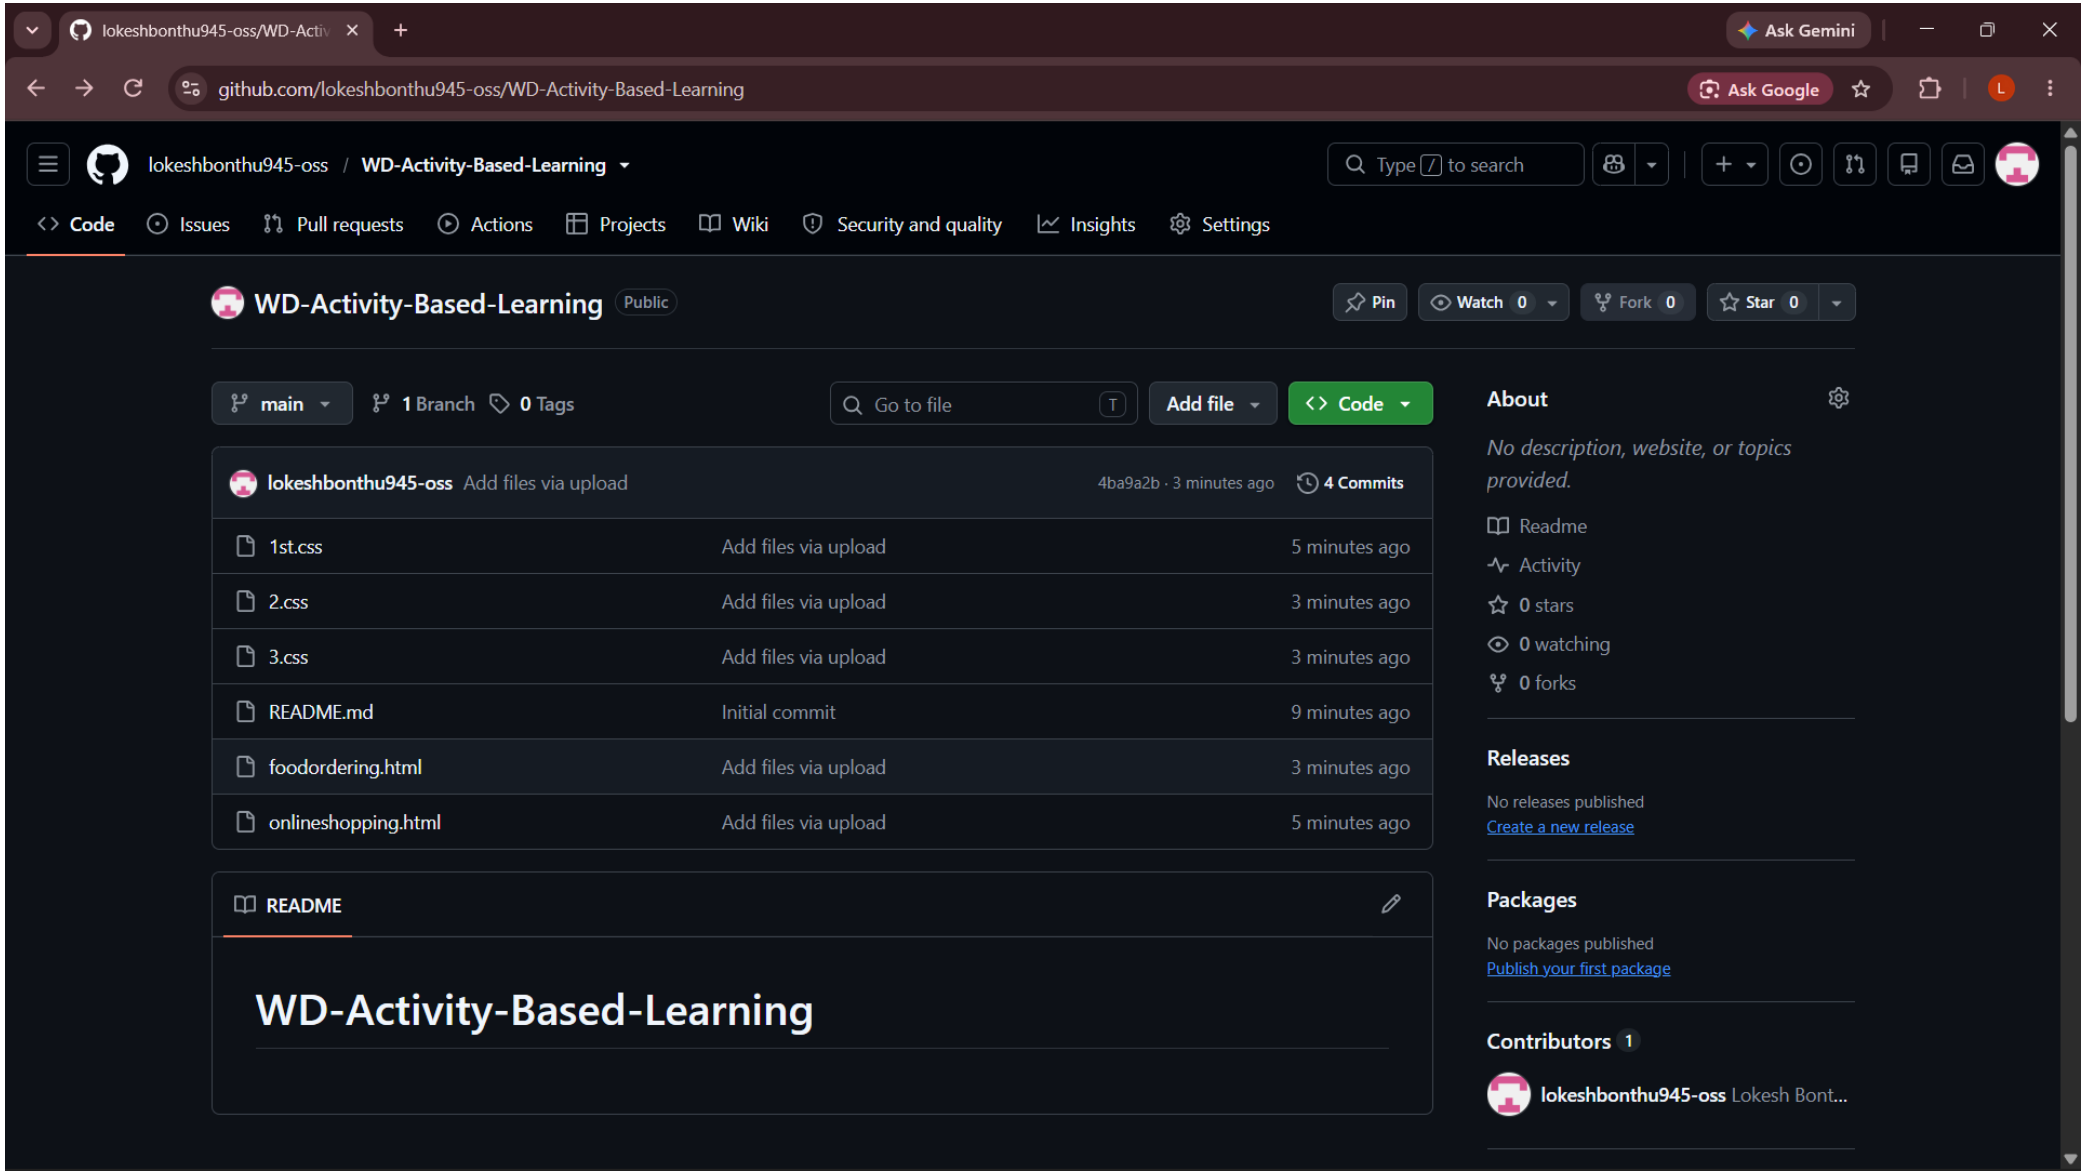

Consolidated Web Development Project Report

This report combines the provided GitHub repository screenshot and the output screenshots of three beginner-friendly HTML/CSS website activities into one PDF document.

Included Activities

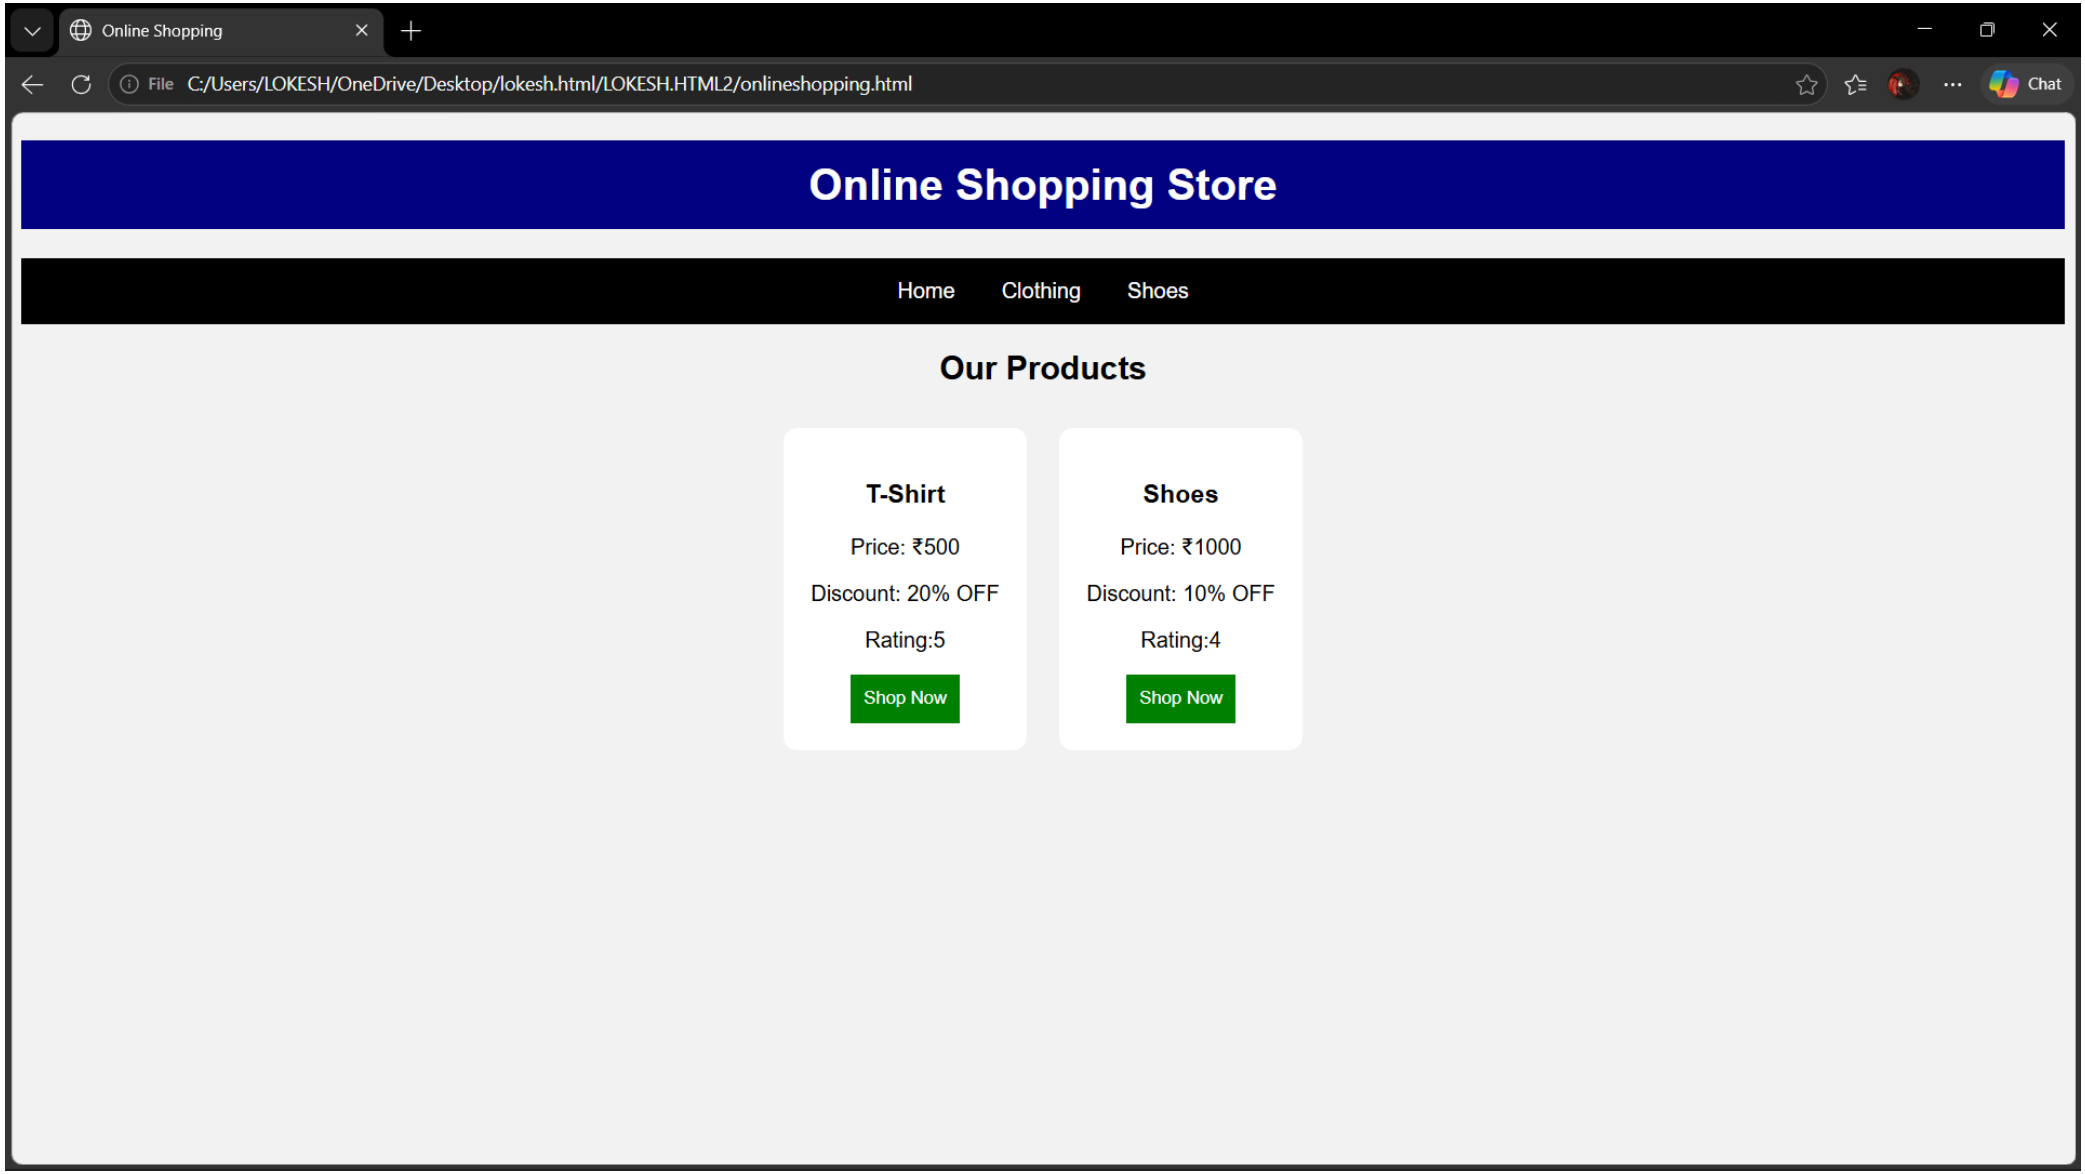

1. GitHub repository overview — WD-Activity-Based-Learning
2. Online Shopping Store — product cards, prices, discounts, and ratings
3. Electronics Store — laptop and smartphone product cards
4. Online Food Ordering — food menu with prices and ratings

1. GitHub Repository Overview

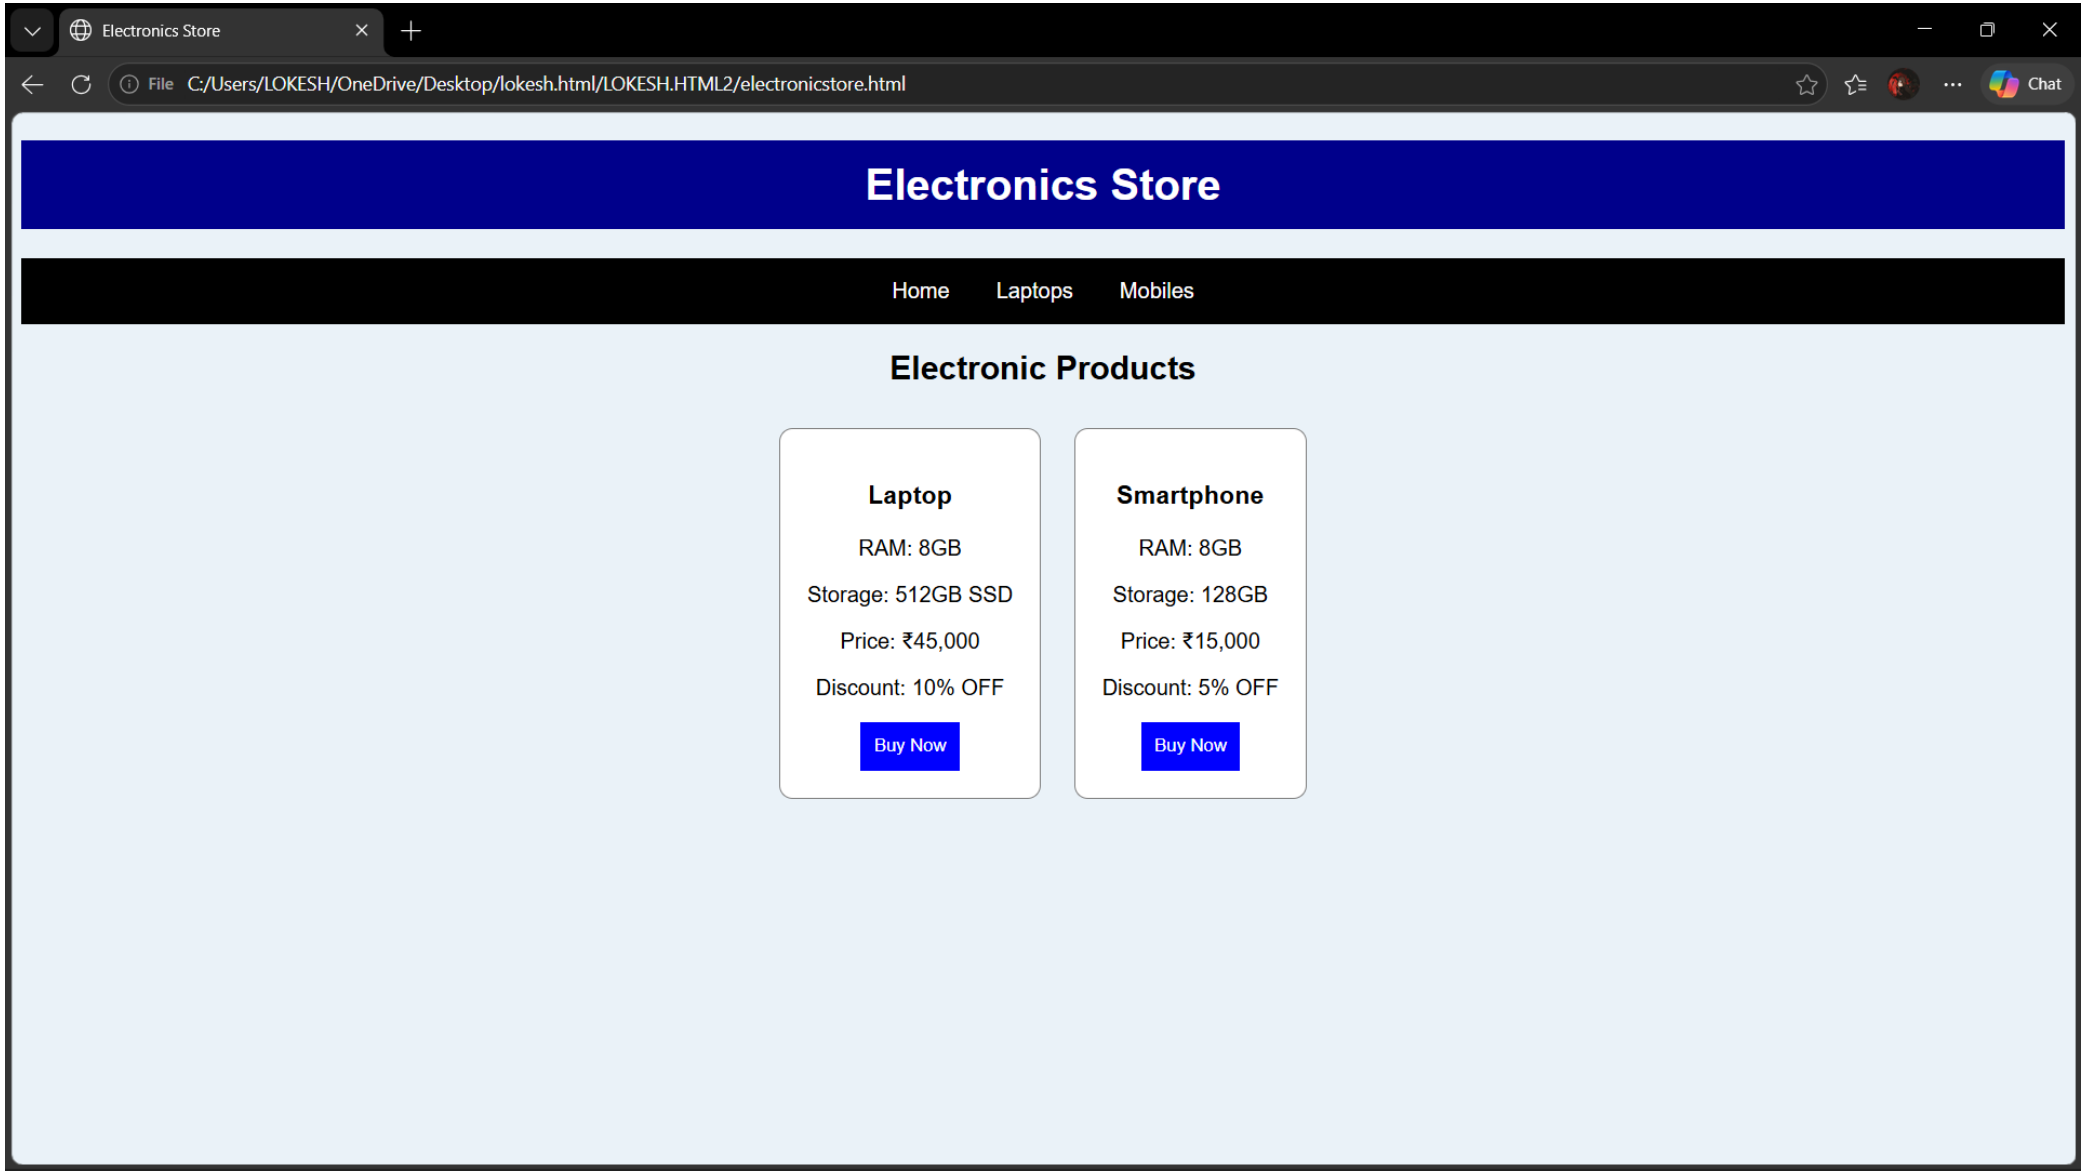

Repository showing the uploaded HTML/CSS activity files and README.

2. Online Shopping Store

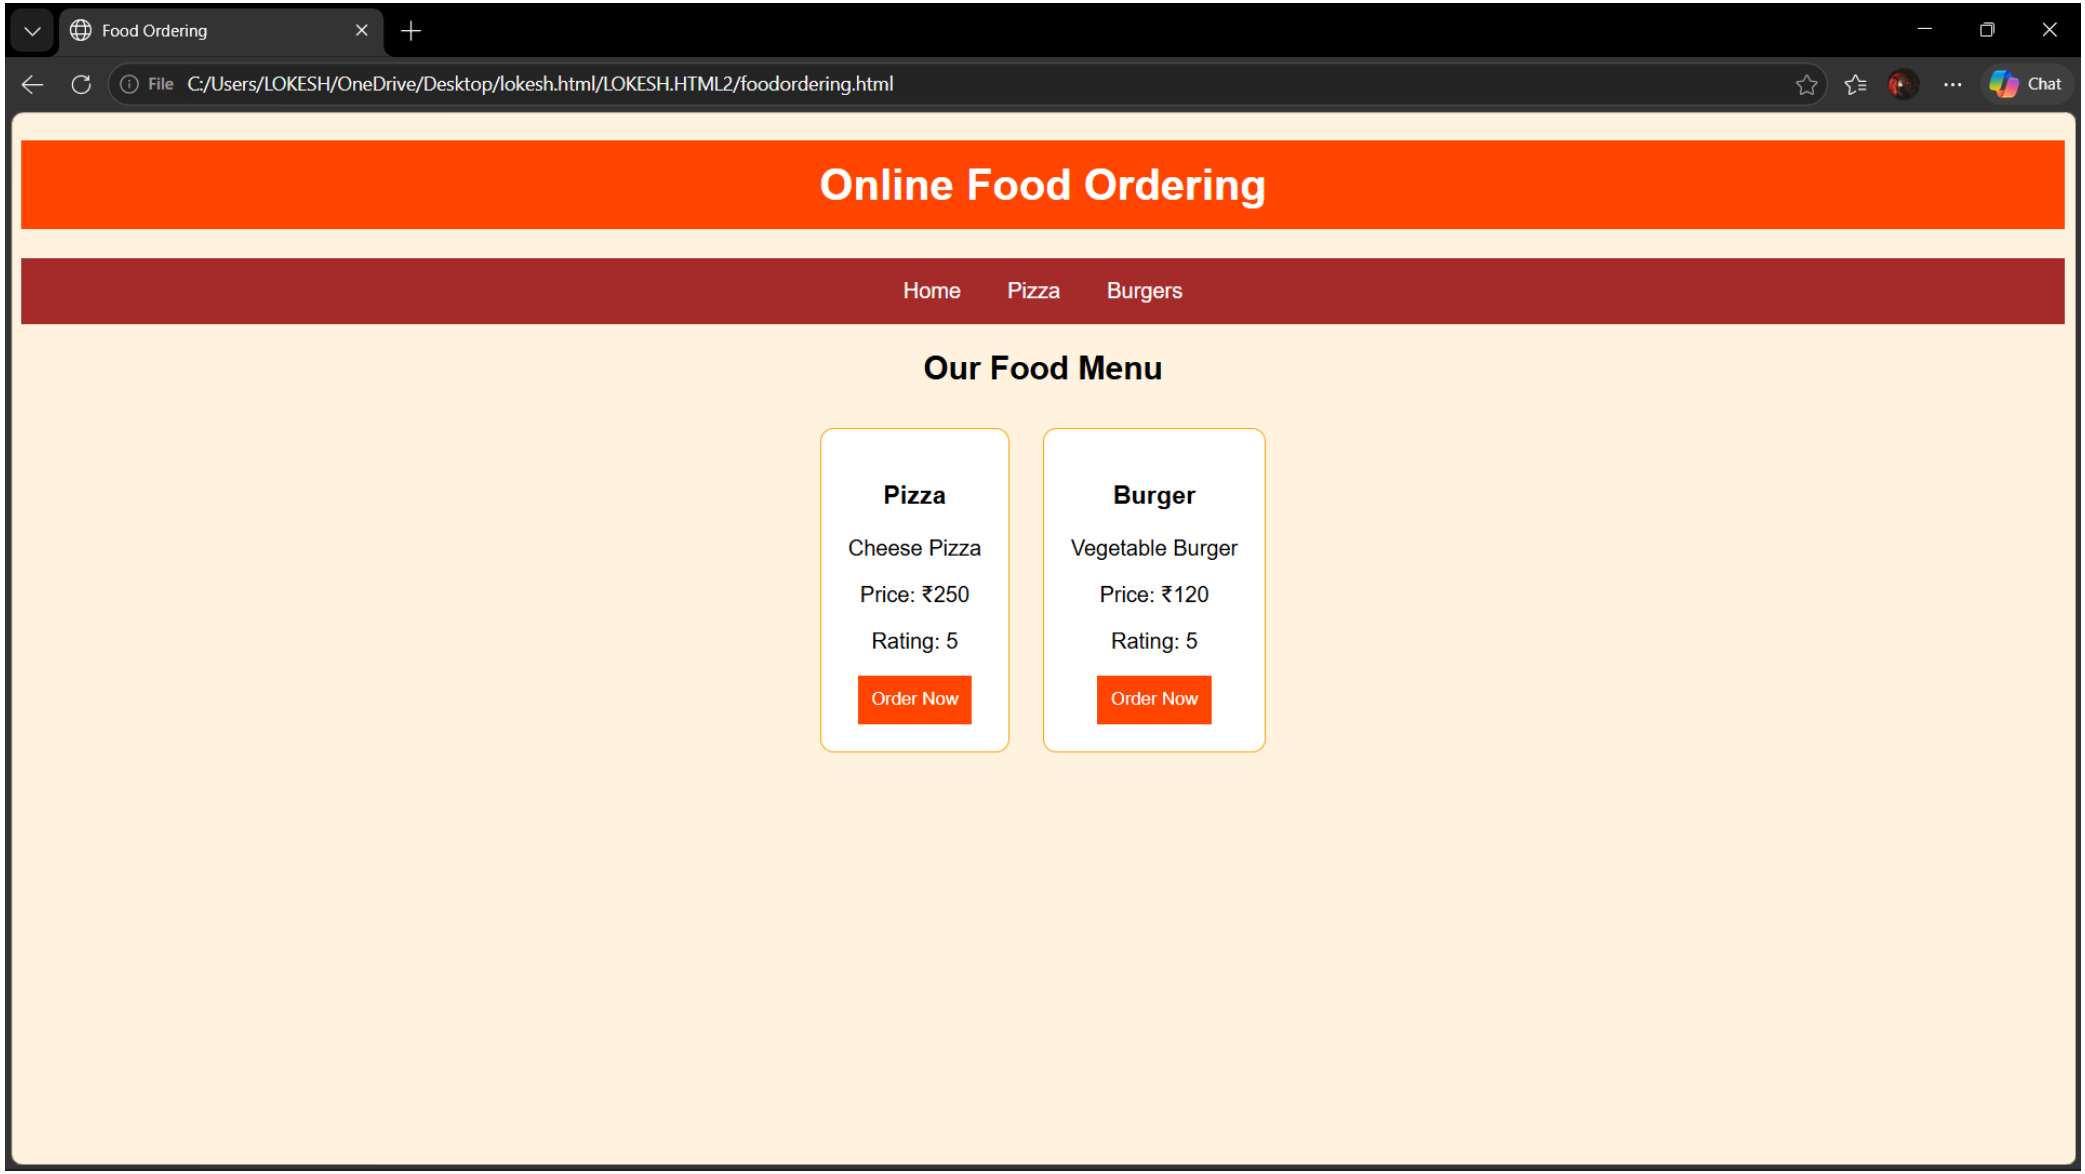

Website output showing T-shirt and shoes product cards with prices, discounts, ratings, and Shop Now buttons.

3. Electronics Store

Website output showing laptop and smartphone details, including RAM, storage, prices, discounts, and Buy Now buttons.

4. Online Food Ordering

Website output showing pizza and burger menu cards with descriptions, prices, ratings, and Order Now buttons.
